

GKE is dedicated to the effective dissemination of cutting edge Best Educational Practices to facilitate the critical implementation of strong, educational technology infrastructures. GKE frequently facilitates educational institution visits, workshops, and meetings for educational leaders. As a powerful reflection of GKE's dedication and commitment, GKE President James Chang and GKE Senior Vice President Florence McGinn accompany key leaders on their visitations and to meet personally to develop visionary initiatives.

GKE-facilitated Classroom Visitation for the Tzu Chi Foundation

In March, 2001, GKE CEO James Chang facilitated members of the Tzu Chi Foundation on a visitation to Hunterdon Central Regional High School, a National Blue Ribbon School of Excellence in Flemington, New Jersey, USA.

Tzu Chi Foundation members were given a facility tour by Dr. Roland Pare, HCRHS Director of Information Systems. Attending members of the Tzu Chi Foundation viewed a pilot classroom presentation by former US Commissioner on the Congressional Commission on Web-based Education and GKE Senior Vice President, Florence McGinn.

Members of the Tzu Chi Foundation viewed in-depth, proof-of-concept, award-winning student project work as well as had discussion with pilot project students.

GKE-facilitated Classroom Visitation for LearningDigital.com CEO Shumin Chuang

CEO, Shumin Chuang, of Taiwan-based LearningDigital.com was facilitated by GKE President James Chang in viewing award-winning, student pilot projects at Hunterdon Central Regional High School in Flemington, New Jersey, USA, in March, 2001.

CEO Shumin Chuang viewed the HCRHS pilot classroom that utilizes ComWeb technology as an in-classroom network as well as a distance learning configuration. She viewed and discussed usage of classroom methodologies based upon the GKE Innovative Learning System's concepts of innovation and strategies of technology-assisted learning. CEO Shumin Chuang reciprocated by sharing a presentation of cutting edge, corporate-developed XML tools that could be deployed in educational environments.

This project is one of many GKE and GKE-facilitated projects. With K-12, university, and corporate strategic partners, GKE designs and integrates value-added, technology-assisted learning interactions that are customized to suit compelling regional and international education industry needs.
