

*We are in an era
where knowledge is power
and learning is the pivotal strategy
for global success.*

Global Knowledge Exchange, GKE, is a global, educational consortium whose primary mission is to facilitate global education industry initiatives, contribute to innovation in education, to foster the global sharing of information on the best educational programs, practices, technologies, and institutional models.

The GKE Innovative Learning System is a value-added pedagogical approach embedded in an international business strategy integrated into a powerful, global education industry vision.

The GKE Innovative Learning System is built upon proven learning strategies and a visionary concept of a worldwide educational community empowered through technology.

Compelling evidence suggests extraordinary promise for technology-assisted learning solutions aligned with innovation, local education, and global systems.

GKE brings the most outstanding models of learning and business alliance opportunities to the landscape of the 21st century's global education industry.

The GKE Innovative Learning System was developed by Florence McGinn, GKE Consulting Executive Vice President, former US Commissioner, Web-based Education CEO of Insynthesis LLC, 1998 US National **Tech & Learning** Teacher of the Year, and Princeton University's Distinguished Educator 1998
